LAPIN AMK
Lapland University of Applied Sciences

Lapland University of Applied Sciences is the northernmost UAS in the EU. With main campuses located in Rovaniemi, at the Arctic Circle, and in Kemi and Tornio in the Sea Lapland region, Lapland UAS is international and multidisciplinary. We offer four international Bachelor's programmes and one international Master's programme with excellent post-graduate study possibilities.

A sense of community is very important to people here in the north. Campuses are close-knit multicultural communities that offer students lively and modern learning environments. Yes, it's cold here in the winter, but the people here are warm-hearted. We will be here for you.

INTERNATIONAL BUSINESS

210 ECTS • 3,5 years • Bachelor • Daytime studies • Rovaniemi

In the Degree Programme in International Business (IB) you will study **Sustainability Business** in an international group whilst learning how environmental and social factors impact business decisions. You will be working in innovative ways to develop an entrepreneurial approach to the global business environment. Sustainability is a cross-cutting theme in your studies. The BBA degree prepares you for various careers in different fields of business and provides you excellent possibilities in working life.

TOURISM

210 ECTS • 3.5 years • Bachelor • Daytime studies • Rovaniemi

The Degree Programme in Tourism focuses on giving the students skills and knowledge required in the international tourism industry. The main emphasis and specialization areas are **Tourism Management and Experience Design**. We cooperate closely with local tourism enterprises and give you an option to have your training period or study exchange abroad. Multicultural issues, sustainability, service design and business-related subjects are emphasised in this international programme. The Tourism degree will give you excellent career opportunities.
